Figma

- Designed an end-to-end mobile application with 10+ screens
- Created a complete design system with accessibility-first principles
- Implemented gamification, progress tracking, family accounts, and data visualization • Focused on intuitive user experience and engagement

Personal Library Management System

Java, JavaFX

- Developed a desktop application to manage personal book collections
- Implemented CRUD operations, real-time search, filtering, sorting, and CSV export Designed clean UI using Scene Builder and CSS

Book Donation and Exchange System

C, MySQL

- Built a console-based application with user and admin roles
- Implemented book management, request handling, and database integration Designed a structured, menu-driven system for resource sharing

ResQNet – Community Drive Disaster Alert App (UI/UX Design)

Figma

- A emergency response network, a community powered disaster management mobile app designed for Sri Lanka.
- Designed an end-to-end mobile application with 10+ screens
- Created a complete design system with accessibility-first principles

Bank Management System
Java

- Created a console-based banking system using OOP principles
- Supported account creation, transactions, money transfers, and transaction history • Used Array Lists, encapsulation, and menu-driven logic

Portfolio Website
HTML, CSS, JavaScript

- Developed a fully responsive and animated personal portfolio website with dark/light theme toggle and modern UI design
- Integrated functional contact form with EmailJS, mobile-first responsive layout, and optimized performance for all devices.

Portfolio Website
HTML, CSS, JavaScript

- Developed a fully responsive and animated personal portfolio website with dark/light theme toggle and modern UI design
- Integrated functional contact form with EmailJS, mobile-first responsive layout, and optimized performance for all devices.

Portfolio Website
HTML, CSS, JavaScript

- Developed a fully responsive and animated personal portfolio website with dark/light theme toggle and modern UI design
- Integrated functional contact form with EmailJS, mobile-first responsive layout, and optimized performance for all devices.

CERTIFICATIONS & COURSES

- Python for Beginners
- Graphic Designing
- Java Basic Programming
  Front-End Development (HTML, CSS, JavaScript)
- SQL
- C Programming
- Introduction to UI/UX Design
- CyberSecurity
- Cyber Attack

EXPERIENCE & PRACTICAL EXPOSURE

Cashier Intern
SANASA DTCCS, Vavuniya

- Handled daily cash transactions with accuracy and responsibility
- Provided effective customer service and clear communication
- Managed time-sensitive tasks in a fast-paced environment
- Developed teamwork, problem-solving, and interpersonal skills
- Extensive lab and exam-based programming experience in **C, Java, and DBMS** • Active participation in project-based and self-driven learning

ADDITIONAL EXPERIENCE

Technology Content Writer

- Wrote articles related to technology, AI, and digital trends
- Demonstrated strong written communication and technical explanation skills

KEY SKILLS

- Problem Solving & Analytical Thinking
- Self-Learning & Adaptability
- Time Management & Organization
- Teamwork & Independent Work

INTERESTS

- Web Development & WordPress Innovation
- Cybersecurity and Forensic
- UI/UX Design & Digital Creativity
- Emerging Technologies
- Technology Writing & Knowledge Sharing

LANGUAGES

- **English:** Full Professional Proficiency
- **Tamil:** Native
- **Sinhala:** Limited Working Proficiency
