- HTML5, CSS3, JavaScript
- PHP (Basic)
- Figma (UI/UX Design)

Programming Languages

- C
- Java + (javafx/ javaSwing)
- Python

Databases

- SQL
- MySQL
- Database Design (Basic)

Tools & Version Control

- Git
- GitHub

ACADEMIC & PERSONAL PROJECTS

The Literary Hub – Bookstore Website
HTML, CSS, JavaScript

- Developed a responsive bookstore website with grid-based layout and interactive UI components
- Implemented add-to-cart functionality, fixed navigation bar, and smooth scrolling Applied responsive design principles for mobile and desktop compatibility

Coffee Day – E-Commerce Website
HTML, CSS, JavaScript

- Designed and developed a multi-page coffee shop e-commerce website
- Created mobile-friendly layouts and interactive navigation
- Focused on usability and clean front-end structure

Renova – Sustainability Tracking Mobile App (UI/UX Design)
Figma

- Designed an end-to-end mobile application with 10+ screens
- Created a complete design system with accessibility-first principles
- Implemented gamification, progress tracking, family accounts, and data visualization • Focused on intuitive user experience and engagement

Personal Library Management System
Java, JavaFX

- Developed a desktop application to manage personal book collections
- Implemented CRUD operations, real-time search, filtering, sorting, and CSV export Designed clean UI using Scene Builder and CSS

Book Donation and Exchange System
C, MySQL

- Built a console-based application with user and admin roles
- Implemented book management, request handling, and database integration Designed a structured, menu-driven system for resource sharing

ResQNet – Community Drive Disaster Alert App (UI/UX Design)
Figma

- A emergency response network, a community powered disaster management mobile app designed for Sri Lanka.
- Designed an end-to-end mobile application with 10+ screens
- Created a complete design system with accessibility-first principles

Bank Management System
Java

- Created a console-based banking system using OOP principles
- Supported account creation, transactions, money transfers, and transaction history • Used Array Lists, encapsulation, and menu-driven logic

Portfolio Website
HTML, CSS, JavaScript

- Developed a fully responsive and animated personal portfolio website with dark/light theme toggle and modern UI design
- Integrated functional contact form with EmailJS, mobile-first responsive layout, and optimized performance for all devices.

Findit Website
HTML, CSS, JavaScript ,Cursor AI , *Netlify*

• Developed a responsive lost-and-found web application that enables users to post and search for lost or found items through a clean and user-friendly interface.
• Utilized Cursor AI to accelerate development and deployed the application via Netlify, ensuring fast performance and accessibility across devices.

Prompt-Vault Website
HTML, CSS, JavaScript, Cursor AI , *Netlify*

- Built a modern prompt management web application that allows users to store, organize, and quickly retrieve AI prompts through an intuitive interface.
- Leveraged Cursor AI during development and deployed the application on Netlify with a mobile-first responsive layout and optimized UI performance

CERTIFICATIONS & COURSES

- Python for Beginners
- Graphic Designing
- Java Basic Programming
  Front-End Development (HTML, CSS, JavaScript)
- SQL
- C Programming
- Introduction to UI/UX Design
- CyberSecurity
- Cyber Attack

EXPERIENCE & PRACTICAL EXPOSURE

Cashier Intern
SANASA DTCCS, Vavuniya

- Handled daily cash transactions with accuracy and responsibility
- Provided effective customer service and clear communication
- Managed time-sensitive tasks in a fast-paced environment
- Developed teamwork, problem-solving, and interpersonal skills
- Extensive lab and exam-based programming experience in **C, Java, and DBMS** • Active participation in project-based and self-driven learning

ADDITIONAL EXPERIENCE

Technology Content Writer

- Wrote articles related to technology, AI, and digital trends
- Demonstrated strong written communication and technical explanation skills

KEY SKILLS

- Problem Solving & Analytical Thinking
- Self-Learning & Adaptability
- Time Management & Organization
- Teamwork & Independent Work

INTERESTS

- Web Development & WordPress Innovation
- Cybersecurity and Forensic
- UI/UX Design & Digital Creativity
- Emerging Technologies
- Technology Writing & Knowledge Sharing

LANGUAGES

- **English:** Full Professional Proficiency
- **Tamil:** Native
- **Sinhala:** Limited Working Proficiency
